## PALACE

IN THE  
GOOD OLD  
DAYS

SUGGESTION—"It has been suggested that the members of Congress who cut down the strength of the Army so as to destroy its effectiveness, because of their hatred toward the brave men who subdued the rebellion, be turned over to the tender mercies of the Indians who are now slaughtering the inhabitants of Nevada. We second the motion." (1877)

WORST SALOON—"The Banner said last week that 'saloons are said to be the worst nuisance in town,' on what we regard as good authority. — says 'it is a d-d lie.' This has led us to make further inquiry. The result is that we emphasize our statement of last week: —saloons are the worst nuisance in town, and it is not creditable to our city that he should be allowed to maintain it here. Persons suffering from it should at once make complaint before the proper authorities." (1877)

MANY TEACHERS —"Clay County has today about four hundred licensed teachers, with only about one hundred and fifty schools and graded rooms to supply." (1877)

GREENCASTLE NEWS—"The new street car was out yesterday for the first time — Bamboo watch chains are now the rage among men and boys—Locust street and College Ave. have become fashionable drives—Dr. Bence and lady were visiting his parents in Putnam County this week." (1877)

RACE COURSE—"Rev. S. Beck, in his sermon on Sunday, said that the establishment of the Greencastle race course was worse than the opening of a half-dozen new saloons. Prof. McNutt prayed that the devices of the wicked might be brought to naught; that where they expected profits they might find losses, and that where they expected pleasure they might find discomfort." (1877)

GOOD OLD DAYS—"The Women's Foreign Missionary Society of Robert Chapel will have a supper at the parsonage next Wednesday evening. Supper with ice cream and cake 25c." (1877)

FOREIGN AID—"We don't want San Domingo. We don't want France's pail; Drat Mexico and Mexicans, And bloody Montreal.

Let Britain keep her butchers, Let Spain her rebels soothe; Let's mind our own good business, And make our own way smooth." (1877)

NOBILITY IN LABOR —"A good many people are out of employment because they demand a choice of occupation. As an instance of this one of our livery men recently hired a man to work at \$1.50 a day. At 5 o'clock on the first day he threw up the sponge and declared he wouldn't work in a livery stable at \$10 a day. That man hasn't learned yet that there is nobility in labor." (1877)

PERSONALS—"Col. Eli Lilly came over from Indianapolis Saturday and joined his wife, who had been here for some two weeks as the guest of his mother—Millard Morrison, who went to Nebraska a few weeks ago, did not get married as reported. He went because it was pleasant there; that's all—The Post Office will hereafter be open on Sunday afternoons from 3 to 4 o'clock, and from 5 until 6 o'clock." (1877)

## DR. YUNCKER HONORED ON RETIREMENT

MEMBER OF DEPAUW UNIVERSITY FACULTY  
SINCE 1919

On May 22, the present majors in the Dept. of Botany and Bacteriology, DePauw University, honored Dr. T. G. Yuncker, head of the department since 1921, at a picnic dinner in Robe-Ann Park. At this time the Departmental Club and Phi Epsilon Phi presented Prof. Yuncker with a purse.

On Friday evening, the majors in Botany and Bacteriology since 1919, Dr. Yuncker's first year on the DePauw staff, held a retirement-reunion dinner in the Union Building. The floral arrangements, a gift from the major students, were prepared by Eitel's from Anthurium flowers and a variety of colored leaves, all from Hawaii. The place cards were miniature palm trees, made by Mrs. Howard Youse. The dinner music, on records, was Hawaiian. Orchid leis for Dr. and Mrs. Yuncker were gifts of Miss Shirley Moses, head of Girl Scouts, Hilo, Hawaii. Miss Carol Ackerson, class of '56, retiring president of Phi Epsilon Phi, placed the lei on Dr. Yuncker, and William Baxter, class of '56, representing the Botany and Bacteriology Club, placed the lei on Mrs. Yuncker. The Hawaiian theme was in recognition of Prof. Yuncker's numerous publications regarding the flora of various South Pacific Islands, including Hawaii.

Dr. Harold Cook, son of Melville T. Cook, professor of Botany at DePauw and head of the department, 1895-1904, was master of ceremonies. Following the dinner, a bound volume of letters of tribute and congratulations was presented to Prof. Yuncker by Dr. Cook. A bound volume of selected reprints of the majors who have earned the Ph.D. degree was given to Prof. Yuncker by Dr. William Gray, Ohio State University, in the absence of Dr. Dawson. (More than 60 per cent of Dr. Yuncker's majors have earned advanced degrees in Botany or Bacteriology, approximately 25 per cent receiving the Ph.D. degree.) In addition, Prof. Yuncker received a purse from the majors 1919-1956, in appreciation and with best wishes.

Dr. Howard Youse, DePauw, was in charge of arrangements for the retirement-reunion dinner.

The former major students returning for the occasion came from Illinois, Indiana, Kentucky, Maryland, New York, Ohio, Oregon and West Virginia. Miss Barbara Yuncker, New York City, joined her parents in the celebration.

The organizing committee consisted of Dr. Ray F. Dawson, Columbia University, New York City; Dr. Emory G. Simmons, Research Division, Quartermaster R. & D. Center, Natick, Mass.; Dr. Harold T. Cook, United States Department of Agriculture, Beltsville, Maryland, and Dr. Howard R. Youse and Dr. Winona H. Welch, DePauw University.

## CHURCHES WILL HIRE 'PROS' TO RAISE FUNDS

WILL TAKE OVER TRADITIONAL LAYMAN'S JOB THIS YEAR

WASHINGTON, June 9 (UP) — Hundreds of American churches will reverse the "do-it-yourself" trend this year by hiring professionals to take over the traditional layman's job of raising money.

The first professional fund-raising firms were established in the early 20s by former YMCA officials who had worked together during World War I Liberty Loan drives. Today there are more than 400 such firms in the nation. Among those which are prominent in church fund drives are the Wells organization; National Fund Raising Services, Marts & Lundy; Ward, Dreshman — Reinhardt; the American City Bureau; Lawson Associates; and Ketchum Inc.

Their fees for conducting a building fund drive may range from less than \$2,500 to more than \$10,000, depending on the size of the church and the goal. Most of the large firms work on a flat fee basis. The American Association of Fund-Raising Counsel considers it unethical for a firm to charge a percentage of the sum raised.

For its fee, a church gets the full-time services of a professional director usually just one man (Continued on Page Four)

## IKE UNDERGOES SURGERY EARLY THIS MORNING

OPERATION ON PRESIDENT REPORTED AS VERY "SUCCESSFUL"

WASHINGTON, June 9. (UP) —President Eisenhower underwent a "successful" operation of nearly two hours early today to relieve a partial obstruction of his intestines.

An official announcement said the President "left the operating table in excellent condition."

The surgery was performed at Walter Reed Army Hospital by a four-man team of civilian and military doctors.

The operation began at 2:59 a. m. EDT and was concluded at 4:52 a. m. EDT. Mr. Eisenhower was on the operating table, under general anaesthetic, for one hour and 53 minutes.

At 4:55 a. m., came the following announcement: "The operation concluded at 4:52.

"The operation was successful. "The President's post-operative condition is very satisfactory.

"He left the operating table in excellent condition."

Those words were telephoned from the third-floor operating suite by Presidential Press Secretary James C. Hagerty to White House aide Dewey Long on the first floor of the hospital. Long repeated them a word at a time, to a throng of some 80 newsmen who had been waiting to send the news to the world.

Hagerty said that was all he could announce at that moment. He said he would provide further details as soon as possible.

The news that Eisenhower had again fallen ill stirred great and widespread concern. Some apprehension arose that perhaps he had had another heart attack such as the one which laid him up for weeks last fall and threatened to remove him from the political picture.

But all day long the medical reports relayed by Hagerty laid great emphasis on the statement that this is not a heart case. Hagerty said the doctors wanted to underscore that.

Dr. Paul Dudley White said before flying to Washington that his information would not lead him to "feel the President is too sick."

WASHINGTON, June 9 —(UP)—Mamie Eisenhower kept an anxious vigil today at her husband's bedside.

Friends said she was "calm but concerned."

The First Lady spent the long summer night in a plain hospital room only a few feet from the President's three-room suite on the top floor of Walter Reed Hospital.

Mrs. Eisenhower's only son, Maj. John Eisenhower, accompanied Mrs. Eisenhower to the hospital and spent the evening. Dr. Milton Eisenhower, the President's brother, also hurried to his side.

By United Press  
The nation forgot party differences today and expressed its concern and hope for President Eisenhower's quick recovery.

Leaders of both parties have (Continued on Page Two)

Pink roses, pink and dark red peonies, palms, smilax and candelabra formed the decorative scheme for the wedding of Miss Nancy Joan Miller of North Salem and Wayne Buser of Roachdale in the North Salem Methodist church at 3 p. m. Sunday.

She carried pink roses, in three shades, Fleur-de-lis and lilies of the valley arranged on a white cross, with ivory streamers. In her left shoe, she wore an old silver dime for good luck, a traditional custom of many North Salem brides.

They wore headresses and mits matching their gowns and carried colonial bouquets of pink roses. Madonna Baker was the flower girl and receptionist. Miss Jeannette Clements was receptionist.

## RED GIVES UP POST

MOSCOW, June 9.—(UP)—First Deputy Premier Lazar Kaganovich, veteran economic trouble-shooter of the Soviet Union, has relinquished his post as chairman of the state Committee on Labor and Wages, it was announced today. No reason was given.

## PROHIB NOMINATE

INDIANAPOLIS, June 9.—(UP)—Indiana's Prohibition Party Friday nominated J. Ralston Miller a Hammond radio engineer, for governor. State chairman Virgil C. Finnell North Manchester, also announced at the one-day session Indiana's strongest "protest" political party plans to present a petition to the 1957 Legislature seeking state-wide prohibition of intoxicating beverages.

## GUNMAN HUNTED

CHICAGO, June 9.—(UP)—Authorities in 16 states were alerted today for the shotgun killer of three Chicagoans believed fleeing toward Mexico. Chicago police probed the city with "shoot on sight" orders for Lawrence Neumann, 28, an ex-convict. Neumann was identified as the gunman who killed a bartender, a dice girl, and a newsboy Friday in a "revenge" shooting spree.

## FISHIN' FUN!

The fishing is getting better!

Fred Pease and Homer Lucas report catching some. With the opening of Cataract Lake Sunday we are expecting some good catches. It is about time for the Cat Fishermen to start catching some big catfish. We heard there was a 10 or 11 pound catfish caught at the Quarry. Guy Pickens purchased a fishing cap and we took particular pains to see that it was a lar pains to see that it was a same thing happens to Guy that happened to his wife—when she caught the big gill.

## Blackwood On Bridge

Mr. Champion's Red Face Is Witness To His Loss

Preparing his team-of-four for the annual match with the Uptown Club, Mr. Champion is trying to get Mr. Muzzy to "unlearn" everything he has learned in 20 years of bridge. While this would undoubtedly be a worthwhile project, it is not possible.

Mr. Muzzy will never change.

But that doesn't mean his methods always fail. As Mr. Dale points out, "Sometimes you get your best results from your worst plays." Truth is that there is a general aura of confusion around Mr. Muzzy which often spreads to his more expert opponents.

## CHANGING TIMES

Some years ago the queen was the recommended lead from a holding of Q 4 2 in your partner's bid suit. Today, better players realize the advantage of leading the deuce from this holding. Mr. Muzzy has been told this a thousand times. But he always forgets.

In today's hand Mr. Muzzy led the queen of hearts against the four spades contract. What a fatal illusion this lead created in Mr. Champion's mind. Mr. Dale overtook the queen of hearts with the king and laid down the ace of the suit. Here Mr. Muzzy dropped the deuce.

Now when the jack of hearts was led at trick three, Mr. Champion lost no time ruffing with the jack of spades. He felt sure Mr. Muzzy had started with the doubleton queen of hearts. And holding a total of nine trumps in his own hand and dummy, it appeared reasonable to believe that the ace, king and queen of spades would be sufficient to pick up all of the outstanding trumps.

## DOWN ONE

As you see, however, ruffing with the jack of spades made Mr. Muzzy's thrice-guarded ten a sure winner. It was impossible for Mr. Champion to avoid the loss of a club trick and he was down one.

He was also fit to be tied. This was the third makeable game hand he had played in the current rubber and he still wasn't vulnerable. Adding to his frustration was the fact that in each case it was Mr. Muzzy who had put him off the right track.

"Muzzy, the Uptown Club will beat our brains out if we play this way," he said. "You led the queen from Q 4 2 in your partner's suit."

Mr. Muzzy frowned. "Doesn't everybody?" he asked, innocently.

MILT, the sterling printer, says he is mighty proud of his old alma mater. The school never has won a football championship but, then, it's never staged a patty raid, either.

Though both he and his wife went to the polls, a candidate for city council of Palermo, Italy, got but one vote. Glad we don't have to explain that!

Mail delivery by rocket is predicted for the near future by a San Francisco industrialist. Let's see neighborhood dogs bite THAT!

The scientific California prognosticator also predicts we'll some day be carrying around watch-

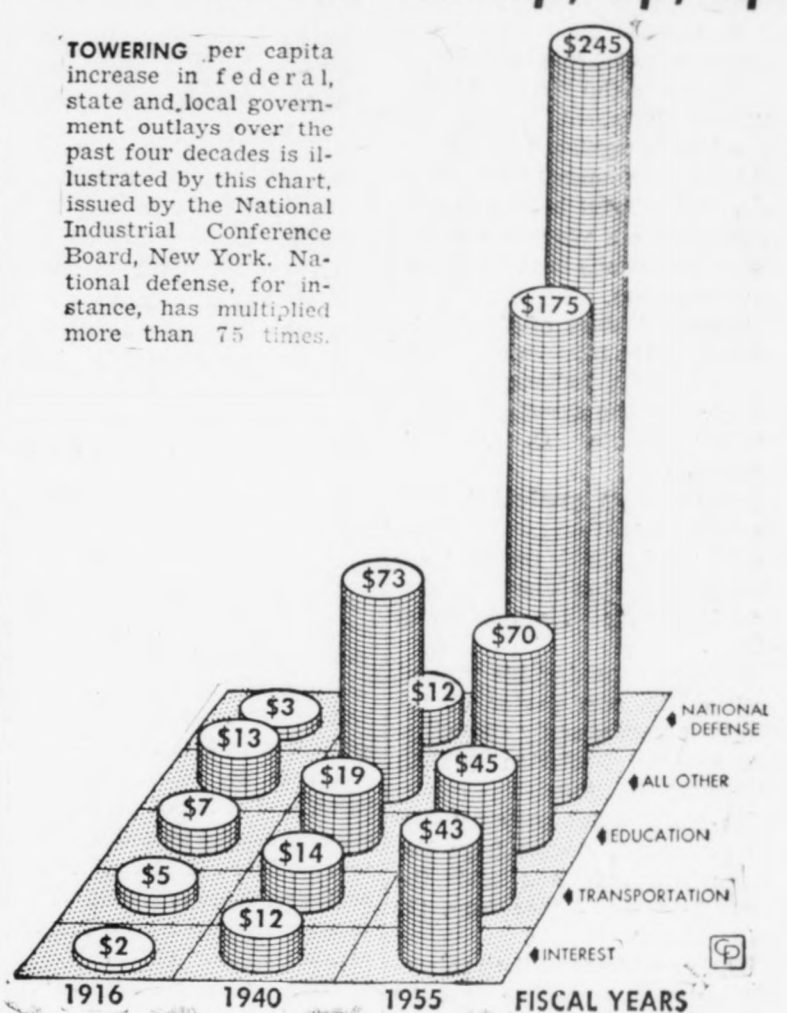

pocket television sets. What's so good there?—we'll need a magnifying glass to learn if we're watching a prize fight or a battle between two ants.

A Filipino claims ownership of a flock of uninhabited Pacific islands. Guy must have a short memory. Japan tried the same stunt.

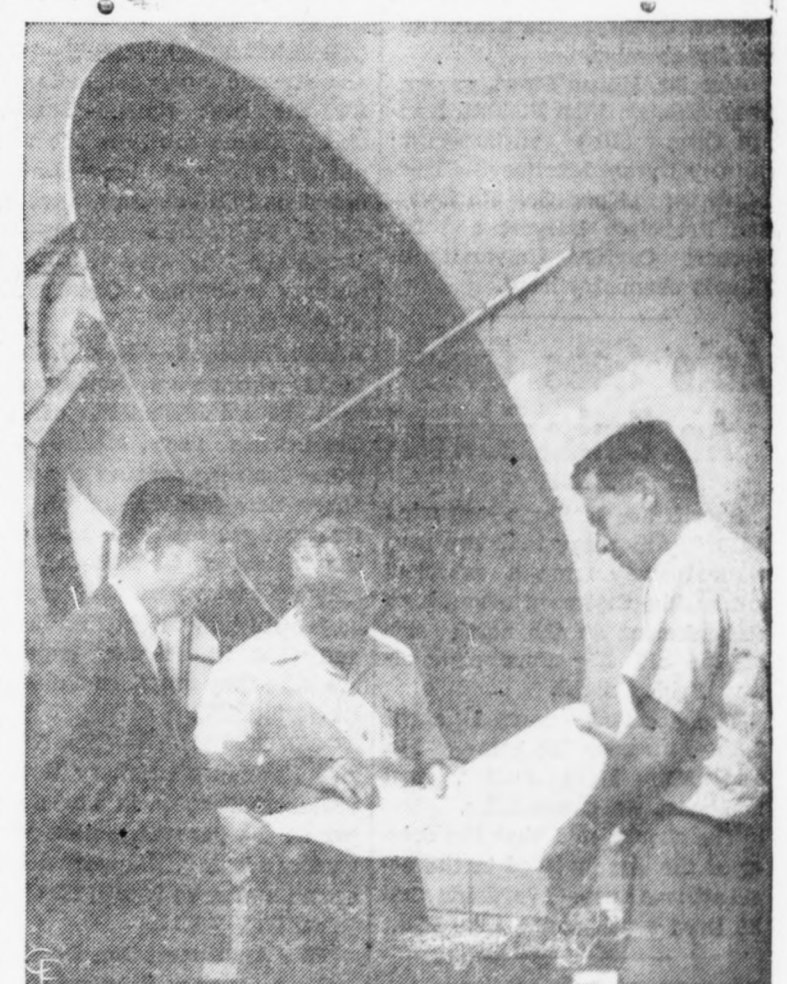

A Swedish tightrope walker kept his balance for over 33 hours. Seems he'd be an ideal candidate for peacemaker in North Africa.

A Nigerian witch doctor now advertises in his local journal. Proves again what we've always contended—for results, there's no magic like newspaper want ads!

## TIPS ON GETTING GASOLINE MILEAGE

DETROIT—(UP)—A little care can save a motorist money by giving him more mileage for each gallon of gasoline.

Here are some of the tips offered by the auto industry for longer mileage from each gallon of gas:

Avoid quick starts and stops and eliminate all jerky driving.

Drive at a steady pace and allow enough time for a trip so excessive speeds won't be necessary. Steady cruising between 50 and 60 miles an hour will combine reasonably fast travel with good fuel economy.

Have the engine of your car tuned so top efficiency is attained.

Watch stop-lights by looking ahead and adjusting speed so a stop for a red light will not be necessary.

Don't let the engine idle for a long period. Shut off the engine if you are going to have a long wait. Idling an engine is a real gas consuming thing.

Don't use heavier lubricants than the owner's manual for your car specifies. Heavy motor oil materially increases engine friction.

If the car doesn't have an automatic transmission, shift quickly into second and high to get the gas savings of high gear driving.

## PRESTRESSED CONCRETE

TWICE AS STRONG  
BERKELEY, Calif.—(UP)—A new technique in the manufacturing of cement has produced cheaper, stronger and safer structures than those built with the familiar reinforced concrete.

Structural engineers at the University of California have determined prestressed concrete can generally carry twice as much load as ordinary reinforced

concrete beams.

Prestressed concrete is made by introducing internal stresses, usually with steel wire "tendons," to counteract the stresses resulting from external loadings.

While the new technique requires the use of stronger steel and concrete it reduces the amount of both materials needed. For smaller construction jobs, prestressed concrete is not too useful because of its expense.

Engineers say steel for prestressing costs an average of three to five times more than ordinary steel. However, since the strength is seven times greater the final cost is less. Also, concrete costs 15 to 20 per cent more, but the strength is twice as much.

## NEW LOOK

WEST NEWBURY, Mass.—(UP)—West Newbury's annual town report has a new look. For the first time there is an illustration on the cover. The sketch by Stan Snow, New Hampshire artist known for his drawings of covered bridges, depicts the town's 115-year-old town hall.

**TWO-LEGGED HUNTING DOG STILL CAN RUN**  
NORFOLK, Va.—(UP)—Abraham Wilson owns a two-legged dog that runs rabbits.  
Bob, a three-year-old Walker hound, lost his left front leg after a car hit him. He had barely learned to hunt on three legs when his left hind leg was caught in a trap and had to be amputated at the thigh.  
The hound has trouble getting to his feet from a lying position, but once up can outrun a man.

State-owned nurseries in Wisconsin have distributed 23,000-000 trees for planting in the past year.

## REFUGE and STRENGTH

Into the House of God they have come for spiritual strength and comfort. The care or sorrow or need which brought them here is not important. It is important that the experiences of a lifetime have taught them that God is their refuge and their strength.

The beauty of faith shines in their faces, and from this devout worship they will go forth stronger in spirit.

But faith is not the exclusive possession of age. From childhood to the grave, man may find hope and comfort and peace in God. For faith banishes fear, overcomes difficulties and imparts new life.

In these troubled days, men need religion more than ever before. In the presence of vast powers hitherto unknown, we may feel frustrated and helpless. Human problems lie heavy upon our spirits. But God is a Rock of Refuge and Pillar of Strength to those who trust Him. Come to the House of the Lord.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
